

"MY LIFE STORY"

When I was nine
I say to my parents bye
because they need to pay huge loan
and leave me in the world alone.

Some people took me to child labour
and wanted to make me a devil.

The people of there were very mad
and make every child as very bad.

I needed to carry heavy loads
and put them to normal boats.

One day police came to the ~~place~~ place
and arrest some people and some people were
chase,

Police took us to a school
and we notice it was cool.

After that child labour was ~~was~~ banned,
And our bad days were end.
